

HUBDAR HUSSAIN HANI

Full Stack Developer | Laravel · React.js · Shopify · PHP · AI Integration

hussainhubdar914@gmail.com | +92-334-877-2514 | Islamabad, Pakistan | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with production experience across Laravel, React.js, and Shopify, delivering REST APIs, admin panels, and e-commerce storefronts for live business clients. Promoted from Intern to Full Stack Developer at Do Technology, engineering secure backend systems (PHP, MVC, OOP, Eloquent ORM, MySQL) and responsive frontends (React.js, Tailwind CSS, Bootstrap). Extended the stack with Python and FastAPI to ship AI-powered features — semantic matching, NLP pipelines — writing clean, well-tested code within an Agile, Git-based SDLC.

TECHNICAL SKILLS

Languages: PHP, Python, JavaScript, TypeScript

Frameworks: Laravel, React.js, Next.js, FastAPI, Shopify (Liquid)

Frontend: Tailwind CSS, Bootstrap, jQuery, HTML5, CSS3, Responsive Design

Backend: REST API Development, MVC, OOP, Eloquent ORM, Authentication & Authorization (JWT, OAuth, Sanctum), SQLAlchemy, Celery

Databases: MySQL, PostgreSQL, SQL, Query Optimization, Schema Design

AI & APIs: OpenAI API, Prompt Engineering, API Integration, Semantic Matching, NLP Pipelines, Web Scraping

Tools: Git, GitHub, Postman, Docker, Deployment, Composer, npm, VS Code, Linux CLI

EXPERIENCE

Full Stack Developer — Do Technology, D.I. Khan

April 2026 – July 2026

- Built and maintained full-stack Laravel/React.js applications end-to-end, including secure admin panels for managing users, content, and business data.
- Designed and integrated REST APIs, testing endpoints with Postman to connect frontend and backend services.
- Built and customized Shopify storefronts — including a flower e-commerce store and ModernBoot — configuring themes, product catalogs, and storefront functionality to match client branding.
- Developed responsive, cross-device UIs with Tailwind CSS and Bootstrap, debugging issues and applying performance optimization to improve stability.

Full Stack Developer Intern — Do Technology, D.I. Khan

January 2026 – April 2026

- Built backend modules and database-driven functionality in PHP, Laravel, and MySQL, and developed/tested REST API endpoints with Postman.
- Built a responsive React.js landing page for a learning platform and fixed bugs across existing modules using Git/GitHub in an Agile workflow.

PROJECTS

TalentFlowAI — AI-Powered Recruitment Intelligence Platform

[GitHub](#)

Next.js · React · TypeScript · Tailwind CSS · Python · FastAPI · SQLAlchemy · Celery · Redis · PostgreSQL

- Engineered a full-stack AI recruitment platform automating CV screening, candidate ranking, and bias auditing, powered by an NLP-based semantic matching engine for explainable, audit-ready scoring.
- Built a FastAPI backend with full CRUD REST APIs, JWT authentication, and PostgreSQL data modeling via SQLAlchemy.

Merier — Multi-Category E-Commerce Web Application

[GitHub](#)

PHP · MySQL · HTML5 · CSS3 · Bootstrap · jQuery

- Built a multi-category e-commerce platform with secure authentication, product search and filtering, a session-based shopping cart, and a normalized MySQL schema for cataloging, inventory, and orders.

Shopify Storefronts — DHAT'S DE FLEURS & ModernBoot

[Live](#)

Shopify · Liquid · Theme Customization · Product Catalog Management

- Built and customized two Shopify storefronts end-to-end — themes, navigation, and product catalogs aligned to each brand's identity.

Kargil — Automated Content Aggregation & Blog Platform

Laravel · PHP · MySQL · Web Scraping · Laravel Scheduler

- Built an automated content-aggregation system in Laravel with custom web-scraping pipelines and scheduled data-refresh cycles via Laravel Task Scheduler.

EDUCATION

BS Software Engineering — Gomal University, D.I. Khan — CGPA: 3.80 / 4.00

2022 – 2026

FSc (Pre-Engineering) — Knowledge Home School & College — 916 / 1100 (83.27%)

2020 – 2022

Matriculation — Qurtuba School & College — 928 / 1100 (84.36%)

2018 – 2020

CERTIFICATIONS & PROFESSIONAL LEARNING

Laravel From Scratch (Laracasts) • PHP for Beginners (freeCodeCamp) • Laravel 11 Complete Course • Modern PHP Development & REST API Development with Laravel
